

CALIFORNIA ADVISORY COMMITTEE ON GEOGRAPHIC NAMES

MINUTES

Meeting of 14 July 1981
Menlo Park
U.S.G.S. 345 Middlefield Road
Building #3

NOTED
SEP 23 1981
Executive Secretary
Domestic Geographic Names

Pre-Meeting Activities

Welcomed by Dan Pinkerton and Jim Chamberlain of U.S.G.S.

Presentation of U.S.G.S. Place Names Gazetteer by Dick Reish.

The gazetteer is in the form of an alphabetical computer printout, containing all names appearing on current series of topographic maps for State of California, comprising 33 different classifications of geographic features.

While it will come out in book form later, the present format is limited to the displayed print-out and Microfiche. Nothing of a historical nature is included.—The gazetteer does not contain political names, National Forests, or State Parks. It includes a "BGN" column, which indicates to the user if any action has been taken by the Board for the listed feature.
